Kazakhstan in Brief

Area: 2,724,900 km²

Population: 16,196,800

Administrative Divisions: The Republic is composed of 14 regions and three cities of republican subordination.

Currency: Kazakh tenge (100 tiyn).

Geographical Location: Kazakhstan is a state in Central Asia. In the south-west it is washed by the Caspian Sea. It borders with Russia, China, Kyrgyzstan, Uzbekistan and Turkmenistan. In the West - a part of the Caspian, and Turan lowlands, in the central part - Kazakh hills, in the north - the southern edge of the West Siberian Plain, in the East and South-East - Mountains of Altai, Tarbagatay, Jungar Alat, Tien-Shan.

Climate: The climate is continental. The average temperatures in January are from -18 C in the north to -3 C in the south, in July +19C in the north and +30C in the South. Annual precipitation in the north is from 300 mm in the desert and less than 100 mm in the mountains up to 1,600 mm.

The state language is Kazakh. In state institutions and local self-administrative bodies the Russian language is officially used on equal grounds along with the Kazakh language.

Public Holidays:

01–02 January — New Year's days	09 May — Victory Day
07 January — Eastern Orthodox Christmas	06 July — Capital City Day
08 March — International Women's Day	30 August — Constitution Day
21–23 March — Feast of Nauryz	16 November (2010) — Kurban Ait
01 May — Kazakhstan People's Unity Day	16–17 December — Independence Day

Useful Information:

Time Zone: GMT+6

Voltage: 220 V (50 Hz)

Emergency: Telephone Number Inquiry: 169; Fire: 101; Police: 102; Ambulance: 103.

Banking: the following foreign credit cards can be used in Kazakhstan: Master Card, Visa Card, American Express Card etc.

Host Cities in Brief

ASTANA

1832 — Date of foundation. Before 1961 — City of Akmolinsk

1961–1992 — City of Tselinograd

1993–1998 — City of Akmola

By the edict of the President of the Republic of Kazakhstan the city of Akmola is declared Capital of the Republic of Kazakhstan on October 20th, 1997 and by the decree of the President of the Republic of Kazakhstan Akmola is renamed into the Astana on May 6th, 1998.

Geographical position: 51° 10' 00" of North latitude and 71° 25' 00" of East longitude.

Local time: Astana is in Time Zone 5. Local time in relation to the Prime Meridian is GMT +06.00

Population: 683,939 people.

The climate of Astana is the second coldest capital in the world (after Ulaanbaatar, Mongolia), with temperatures of -35 to -40 °C common in early winter. The city is also known for regular frosts for around six months every year.

Nowadays Astana is getting the image of a business center of the country. All government organizations, embassies of foreign countries, joint enterprises and foreign firms are concentrated in the new capital.

Each year the city meets guests on various international industrial exhibitions, conferences and music festivals.

ALMATY

1854 — Date of foundation

1854–1921 — City of Vernyi

1921–1997 — Alma-Ata (capital of Kazakhstan)

Almaty is a former capital of the Republic of Kazakhstan and invariably remains the largest megalopolis in the country. Since independence in 1991, the city has experienced a significant transformation from its sudden exposure to western markets.

It is located in the south-east of the country.

Geographical position: 43° 15' 00" of North latitude and 76° 54' 00" East longitude.

Local time: Almaty is in Time Zone 5. Local time in relation to the Prime Meridian is GMT +06.00

Population: 1,405,456 people.

The climate of Almaty is quite mild. It is never as cold here as in the northern parts of the country and one can easily survive without a fur hat and a fur coat. However, because of higher humidity it may seem a little colder in winter than it is in fact.

Almaty remains the largest financial, economic and cultural center of Central Asia. It accommodates numerous business centers, theaters, museums, art galleries, exhibition halls and countless modern entertainment complexes (movie theaters, nightclubs, parks, restaurants, cafes etc.)

The 7th Asian Winter Games in Brief

Dates: January 30 – February 6, 2011

Place: Astana—Almaty, Kazakhstan

Sport Programme: 5 Sports, 11 Disciplines, 69 Events

Venues: 9 Competition Venues

Objectives: According the Olympic and Asian Games spirit, the aim of these Games is to support solidarity, friendship and interchange between Asian countries and regions and to enhance creation of a harmonious Asia.

Motto: Unity of purpose – unity of spirit!
Мақсаты Бірдің – рухы Бір!

Logo: The design of the logo goes back to the image of a nomadic bullock cart. In heraldic art the wheel serves as a symbol of eternal movement, both in space and in time. Reflecting the idea of constant development, the logo becomes an emblem of life and represents creative dynamism. The symbolism of the wheel is close to that of the circle and according to ancient beliefs it expresses the idea of the god of the Sun going around the Earth. Thus, the logo is a solar sign and represents the radiant power of a star that grants life and prosperity.

Asian Games Official Closing Ceremony: February 6, 2011, Baluan Sholak Sport Palace, Almaty

Games Services

Accreditation

All application forms for identification (ID) and accreditation cards (AD) will be available for on-line completion at the official web-site of the Games, www.astana-almaty2011.com, beginning June 1st, 2010. The deadline for completing or making changes to the application forms is October 30th, 2010.

Following the completion, the identification cards must be signed and stamped with the NOC of the respective country, which will ensure the right to enter and exit Kazakhstan with a valid passport from January 1st, 2011 to February 21st, 2011. The accreditation cards will be issued to delegates by accreditation centers once they arrive in Kazakhstan.

Transportation

Arrival to Airport

Transportation services will be provided at the international airports of Astana and Almaty. Designated vehicles will be available at the airport for transportation of arriving delegations to their hotels.

Transit Airport

Almaty international airport will serve as a transit-airport, where representatives of AWAGOC will assist participants to transfer to the flight to Astana.

Participants Transportation

It is planned to transport participants between the cities by air. However, the number of flights will differ depending on participants' status.

Local transportation of participants will be carried out using 30-seat buses which will be provided to the teams. Buses will be available at special bus-stops (parking lots), designed as part of the transport connection between the official hotels and competition/training venues, and will operate for 1–2 hours before and after competitions and trainings.

Transportation Service for Trainings and Competition

Transportation service will be provided to participants traveling between the competition venues and hotels. Any large and heavy luggage will be transported by designated vehicles.

Competition Equipment and Luggage Transportation

The Organizing Committee will help Games participants with transportation of competition equipment and luggage once they enter Kazakhstan. Games participants and their assistants are required to check their belongings, and attend the handling of their luggage together with AWAGOC representatives. The Organizing Committee will provide each team with Games luggage tags.

Accommodation & Fees

Athletes and officials of Alpine Skiing competition will stay at the 3-star «Premier International Alatau» Hotel in Almaty and at the Shymbulak Alpine Sport Resort, 25 km from the center of Almaty.

Accommodation fee for athletes and officials in quota:

50 \$ USD per person per day

Accommodation fee for extra officials:

100 \$ USD per person per day

Early registration and early arrivals:

100 \$ USD per person per day

Catering

The main Games catering places for officials and athletes will be located at accommodation places. It is planned to have 3 buffet-type meals a day to reflect different tastes and religious preferences and to feature national cuisines from all countries of Asia including the host country. Taking into account the climatic conditions of the host cities and the varying distances to be traveled to the sports venues, appropriate and category-specific catering will be organized on sports venues as well. This measure is designed to provide hot meals to the athletes, coaches, staff and official guests of the Games away from the host city sports facilities. Food will be provided according to the relevant symbol on the accreditation cards of Games participants.

Alpine Skiing Technical Information

Date and Competition Venues

Alpine Skiing competitions will be held at the Shymbulak Alpine Sport Resort from January 31st to February 4th, 2011.

Sport Competition Schedule

Women: Downhill, Super-G, Super Combined

Men: Downhill, Super-G, Super Combined

Date	Time	Events
31.01.2011	11.00	Downhill (men)
	13.00	Downhill (women)
01.02.2011	11.00	Super-G (men)
	13.00	Super-G (women)
02.02.2011		Rest day
03.02.2011	11.00	Super Combined (men): Super-G Slalom
	13.00	
04.02.2011	11.00	Super Combined (women): Super-G Slalom
	13.00	

Note: the competition schedule is subject to change according to the final entries.

Trainings Schedule

All competition venues will be available for training beginning January 15th, 2011. AWAGOC will develop a training schedule for each sport according to the arrival information for each team and teams' training requests. A reasonable fee will be charged for using the venue. Free training for Alpine Skiing competitions will be provided from January 28th, 2011.

Competition Rules

The current rules of FIS will be adopted for the Alpine Skiing competition. Any issues that are not covered by the rules will be dealt with in accordance with the relevant regulations of the OCA and FIS.

Qualification

All members of National Olympic Committees and Olympic Council of Asia whose national/regional associations are members of FIS can join the competition.

Participation of athletes must be in conformity with the qualification requirements of the OCA Constitution and Rules.

Entry by Number

Events		Number of Athletes	Total
Women	Downhill	2	6
	Super-G	2	
	Super Combined	2	
Men	Downhill	2	6
	Super-G	2	
	Super Combined	2	

Application Form

First form: Entry form by number

Deadline: [October 30, 2010](#)

Second form: Entry form by name

Deadline: [December 30, 2010](#)

Organization of Competitions

Under the supervision and instructions of the OCA and FIS, the technical delegates and technical officials will work with the Competition Commission of AWAGOC, a body responsible for organizing the Alpine Skiing competition.

Technical Delegates and Referees

FIS with OCA's approval will appoint technical officials, technical delegates, arbiters and referees. Other referees and competition officials will be designated by AWAGOC.

Timing

Electronic timing system will be customized to the competitions and it shall be operated in accordance with the regulations of FIS.

Draw

All the draws related to competitions will be conducted in conformity with the FIS regulation and under strict supervision.

Protest

All protests and appeals concerning technical aspects of the competitions will be conducted according to the FIS regulations.

Awards

The awards to be presented to athletes who rank among the first six places are as follows:

First place: gold-filled silver medal and certificate.

Second place: silver medal and certificate.

Third place: bronze medal and certificate.

Forth to sixth: certificate.

Doping Control

Doping test will be conducted under the guidance of the OCA Medical Committee and in accordance with the World Anti-Doping Code and international doping test standards. The Almaty Athletes' Anti-Doping Laboratory, which was recognized by IOC and WADA, will serve as the test lab for the Games. Test results will be issued within 72 hours. Shymbulak Alpine Sport Resort will be the site of sample collection for athletes joining Alpine Skiing competitions. The number of athletes to be tested and the principles of selection will be determined by the OCA Medical Committee. In the event of any positive test result, the Chairman of OCA Medical Committee will report to the OCA and take appropriate actions on the case.

Shymbulak Alpine Sport Resort in Brief

The Shymbulak Alpine Sport Resort is set in a picturesque valley of the Trans-Ili Alatau Mountains at an altitude of 2,260 meters above sea level. It is famous for its pleasant mountain climate, the magnificence of the surrounding peaks and ridges, and its snowy mountain slopes. The resort is located 25 km away from the city center of Almaty. The average temperature is +20C in the summer, and -7C in the winter. The average snow level reaches up to 150 cm, and the number of sunny days in a year is 90%. Snow covers the valley for the period between November and May. The venue meets internationally accepted technical and sports standards. This season the Shymbulak course passed

international certification procedure for compliance with all applicable standards of the International Ski Federation (FIS). This makes Shymbulak an excellent place for top international competitions. The updated course is equipped with modern systems of timing, scoreboards, safety nets, etc. Along with this, installation of modern systems for snow production is almost completed, which will extend the skiing season at Shymbulak to five months. The so-called "snow guns" will now ensure stability and high quality of the ski resort. Under the influence of sub-zero temperatures the artificial snow cover has a dense uniform surface, unlike the natural snow cover. Moreover, artificial snow can provide some additional safety while descending the slope. Besides it does not melt so fast and does not slide down the hill. To improve the conditions and safety in skiing, snowboarding, and sledding, the course was significantly extended this year. Whereas before the reconstruction the total length was only 6 miles, now it has increased by almost a half. At the same time, some of the busiest sections of the skiing zone got widened. All these works were carried out along with general landscaping of slopes: slopes were cleared of rocks and ruts, thus made to match relevant rules and practically safe. In addition to extending the courses, it is planned to develop and implement Rules of Conduct on Ski Slopes, which is a common international practice with mountain ski resorts. And to create a sustainable system of monitoring and to avoid accidents Shymbulak will operate a special "snow patrol" to monitor the implementation of new norms, rules of conduct and order. This will ensure safety and reduce the risk of incidents and injuries to a minimum.
