A Word from the Honorary President

Toward the Development of Winter Sports in Asia

In response to Japan's proposal of the Asian Winter Games (AWG) for the development of winter sports in Asia, the city of Sapporo hosted the first AWG in March 1986 and the second in March 1990.

The cities of Sapporo and Obihiro are now scheduled to host Japan's fourth AWG after the event was held in Aomori in 2003.

To promote winter sports as well as sporting participation, culture and international goodwill among Asian youths, the 8th Sapporo Asian Winter Games Organising Committee is preparing for the event with Japan's traditional spirit of hospitality (known in Japanese as omotenashi) based on safe, reliable and environmentally friendly planning for a spectacle that will encourage athletes from across Asia to perform to the best of their abilities.

The event will showcase Japan's dynamism to Asian countries and regions with focus on Sapporo – a city where people engage in international exchanges, embrace cultures different from their own, and continue to take on new challenges amid Hokkaido's beautiful natural environment.

The Committee intends to make the 2017 Asian Winter Games a great success that will help to expand winter sport networks in Asia.

The efforts and cooperation of everybody involved in this endeavor are greatly appreciated.

A Word from the President

Making the Games an Outstanding Showcase for the Future

In February 2017, athletes from across Asia will gather in the cities of Sapporo and Obihiro to compete in the exciting Asian Winter Games. I'm truly thrilled that this will be the third time Sapporo has hosted the event in the last 30 years.

Sapporo has hosted numerous international meets in the sporting world, including the Winter Olympic Games and the FIS Nordic World Ski Championships. Based on this experience, the city is forging ahead with preparations for a successful Games in collaboration with the Japanese Olympic Committee (JOC).

The many people who will come to Sapporo and Obihiro from countries and regions across Asia for the event will be welcomed with unrivalled hospitality. This is expected to promote new exchanges as well as highlighting the appeal of the host cities and of Hokkaido as a whole.

All available resources will be used to make the 2017 Sapporo Asian Winter Games an outstanding showcase for the future. The event will provide chances for people to experience the excitement and enjoyment inherent in sports, and will help to give children, in their role as leaders of the future, the aspirations and inspiration needed to inherit this legacy with pride.

The contribution of all involved in these preparations is greatly appreciated.

Official Logo

The official logo was chosen from among proposals submitted by the Japanese public.

The overall form of the logo represents Hokkaido – the northernmost of Japan's four main islands – as a whole. It also has design elements echoing the North Star shining in the night sky, a snow crystal and the winter breeze.

The five blue arcs themselves represent the five sports of the Games and the people from the five Asian regions who will assemble in the host cities of Sapporo and Obihiro and work together to ensure the success of the event. They also signify the assembly and collaboration of representatives from the five regions under the OCA symbolized by the sun in the middle.

The arcs also further represent the organizers' hopes that the influence of this winter sporting event will develop and spread along with Hokkaido's international profile.

Official Mascot

Sporting a red scarf and blue cape, Ezomon is a very special type of flying squirrel that, in Japan, is found only in Hokkaido. Ezomon is a winter sports hero who encourages children to dream big.

The outgoing Ezomon creates excitement for the Games by flying around, wearing the cape with pride!

Accreditation and Validation

Asian Winter Games Identification and Accreditation Cards (AWGIACs) produced by the 8th Sapporo Asian Winter Games Organising Committee (SAWGOC) will be issued to establish identity and give the right of access to specific Games venues and zones so that holders can perform their functions at the 2017 Sapporo Asian Winter Games.

SAWGOC will distribute an Accreditation Package with an Accreditation Guide to each NOCs and Responsible Organization in May 2016.

Pre-valid AWGIACs (PVCs) for approved applicants applying by Monday, September 19, 2016, will be sent to the relevant Responsible Organizations.

PVCs constitute documentation authorizing entry into Japan for overseas delegations along with a valid passport or travel document.

PVC holders are required to visit one of the Validation Counters at the Games official airport or an Accreditation Center and present their PVC along with a valid passport or travel document to have the card validated. Once this process is complete, the card can be used as an AWGIAC.

Immigration and Visas

During the period from Friday, January 20 to Monday, March 13, 2017, PVC holders are permitted multiple entries into Japan without a separate entry visa. Upon entry to Japan, overseas delegations must present a PVC and a valid passport or travel document and submit an Embarkation/ Disembarkation Card.

Delegates who do not have a PVC and who plan to stay in Japan outside the validity period will need to make their own arrangements for entry into Japan in accordance with Japanese immigration law.

Individuals using their PVC as a visa to enter Japan must ensure that their passport is valid after Monday, March 13, 2017 and that the details on the passport match the information provided on the application for accreditation.

The official airport for the 2017 Sapporo Asian Winter Games is New Chitose Airport, which is located in the city adjacent to Sapporo.
